

LEAD AUDITOR FOR MEDICAL DEVICES

The Netherlands

MONIA@ELEMED.EU

THE COMPANY

Are you an experienced Lead Auditor in Active Medical Devices? Do you want to further develop your career in the newest innovations in MedTech? Can you think outside of the box? Are you looking for more teamwork? Would you like to have a better work/life balance?

Yes? Keep rinding you are gonna love this position!

This Notified Body is an ambitious international company where you can work on safe products and a prosperous future.

Join a growing Medical Notified Body that certifies active medical devices and software.

This is a great chance to really be at the center of the most cutting-edge Medical Devices technology entering the market. You can gain invaluable experience in the MD sector with one of the top market companies, working alongside a diversified, young and passionate team, building your internal career based on your true interests!

THE OPPORTUNITY

This is a newly created role and a unique chance for a Medical Devices professional with experience in R&D or early development phase Regulatory Affairs to use those skills in a new context.

You will get access to advanced training as well as the chance to use your technical knowledge to represent the company to its customers. This is a chance to be part of and central to the biggest change affecting the Medical Devices industry in the last 50 years.

THE RESPONSIBILITIES

- Planning of the audit
- Assign responsibilities for auditing specific processes, functions, sites, areas or activities to each audit team member in consultation with the audit team
- Represent the audit team during contact with the team leader, audit customer and auditee
- Conduct the opening meeting
- Conduct on-site audits
- Reassign work as needed between the audit team members and periodically communicate the progress of the audit and any concerns to the customer during the audit
- Report immediate and significant risk (e.g. safety) on-site to the customer and, if possible, to the certification body to determine appropriate action.
- Review with the customer any need for changes to the audit scope which
- becomes apparent during the audit
- Ensure the audit team achieves consensus about the audit conclusions
- Prepare and complete the audit report
- Review solutions to non-conformities and communicate these with customers
- Conduct the closing meeting
- Report the audit findings to the certification decision-maker
- Train and supervise trainee and junior auditors

YOUR QUALIFICATIONS:

- Bachelor's, Master's or PhD in relevant science or engineering
- Minimum of 2 years of experience on a similar position with a Notified Body for Active Medical Devices
