About the NEP

The Northern Endurance Partnership (NEP) is delivering a first-of-its-kind project that will transform the UK's industrial heartlands and fast track the nation's journey to net zero.

NEP is building the onshore and offshore infrastructure needed to transport collected CO₂ from carbon capture projects across Teesside and the Humber – collectively known as the East Coast Cluster – for permanent, secure storage deep beneath the North Sea.

As the UK's first CO₂ transportation and storage network, NEP's infrastructure will help the country's most carbon-intensive regions capture and store emissions. This will protect existing industries, attract new low-carbon investment, create thousands of skilled jobs, and establish the UK as a global leader in carbon capture and storage (CCS).

Following financial close in December 2024 for the Teesside transport and storage system, NEP is moving into construction, with first operations expected in 2029. The next phase focuses on the Humber Carbon Capture Pipeline (HCCP), which will expand the network with new onshore pipelines to transport CO₂ from industrial projects in the Humber region to our offshore stores.

NEP is a standalone incorporated joint venture (IJV) with its own Board of Directors, and bp, Equinor, and TotalEnergies as shareholders.

The Role

NEP offers the opportunity to work on an exciting, nationally significant net-zero project alongside talented and dedicated professionals. Our values – Safety, Care, Integrity, Collaboration and Accountability – guide everything we do. We provide a safe, inclusive workplace, supportive culture and opportunities to build a rewarding career.

The Communications Officer will support the Head of Communications and External Affairs in delivering NEP's communications strategy.

The role will develop and implement campaigns, manage media and digital engagement and contribute to internal and external communications that raise NEP's profile, strengthen stakeholder engagement, and support business objectives.

The role provides hands-on support in creating compelling content, managing NEP's media and social presence, and ensuring messaging is consistent, clear and aligned with organisational priorities.

What you'll deliver

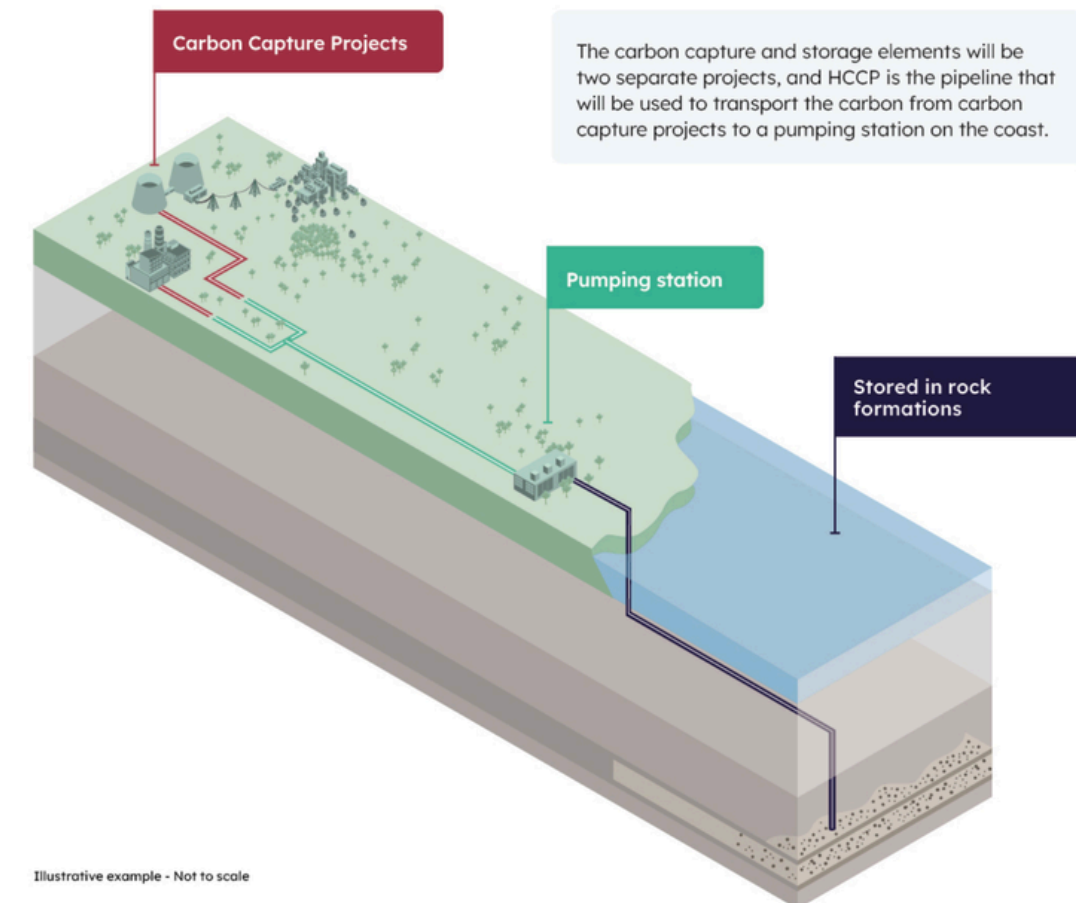

You will deliver communications support to advance NEP's objectives. Deliverables include, but are not limited to:

Communications Strategy & Messaging

- Support the Head of Communications and External Affairs to develop and deliver NEP's external communications strategy, ensuring alignment with business objectives, brand, and agreed evaluation metrics.
- Assist in the development and delivery of integrated communications and engagement plans across NEP.

Content Development & Media

- Develop engaging content for use across NEP's communications channels to support campaigns and ongoing projects.
- Prepare news releases, case studies, thought pieces and other content, pitching them to target publications and channels.
- Respond to media enquiries and develop strong relationships with key journalists and channels.

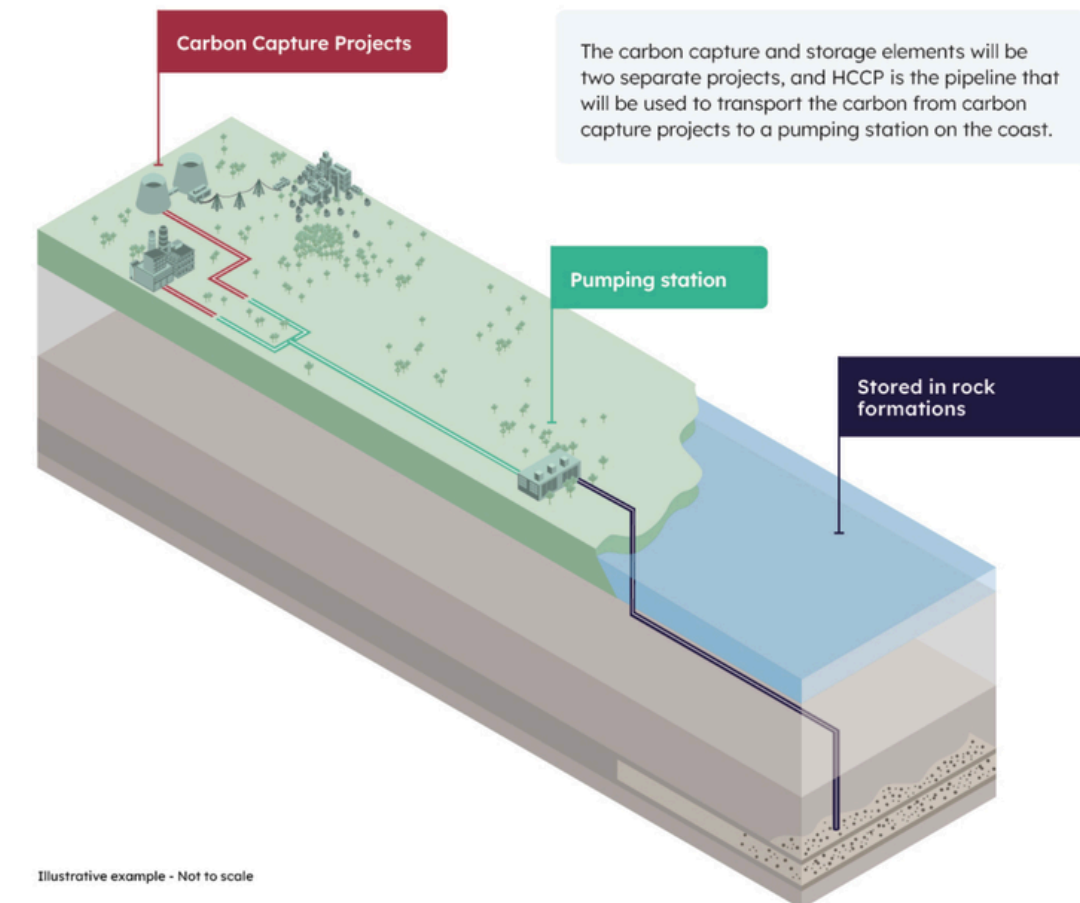

What you'll deliver (ctd.)

Digital & Social Media

- Manage and maintain the content on NEP's website.
- Write and schedule posts for NEP's social media channels and manage engagement.
- Monitor and evaluate media coverage and online engagement.

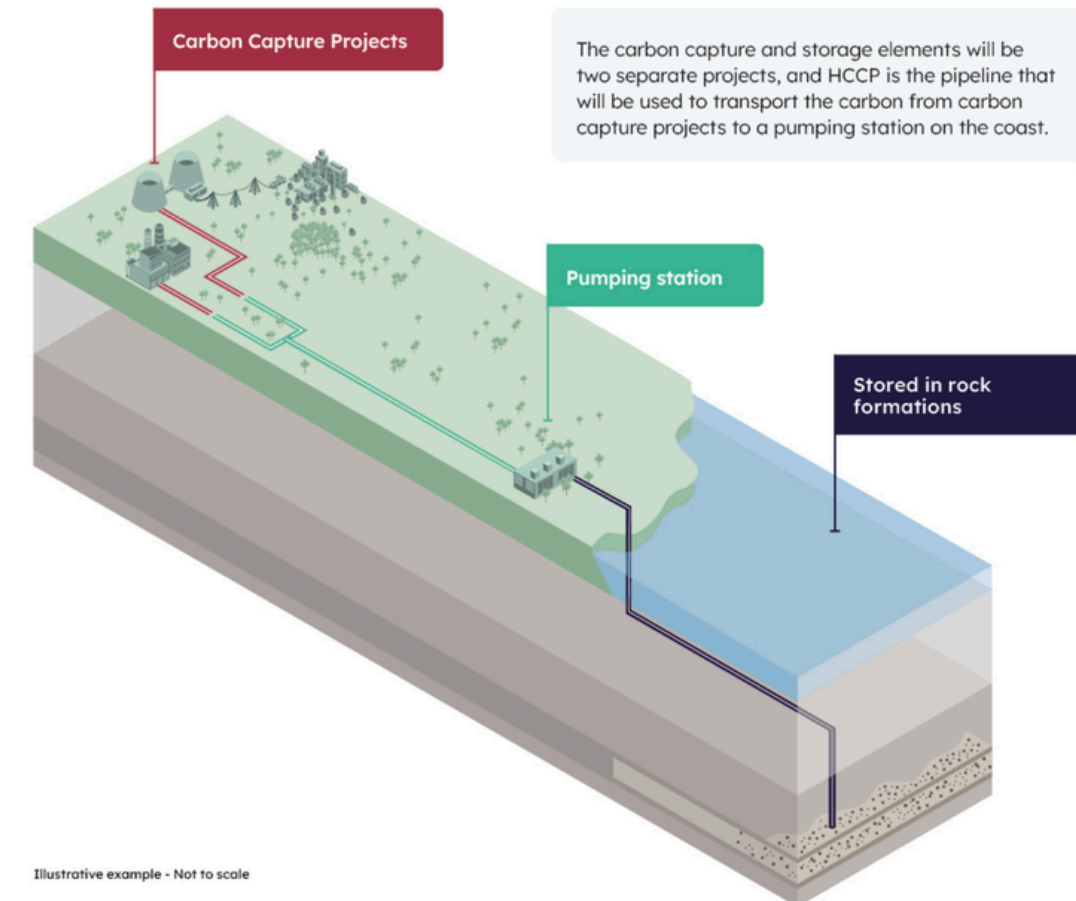

Stakeholder & Event Support

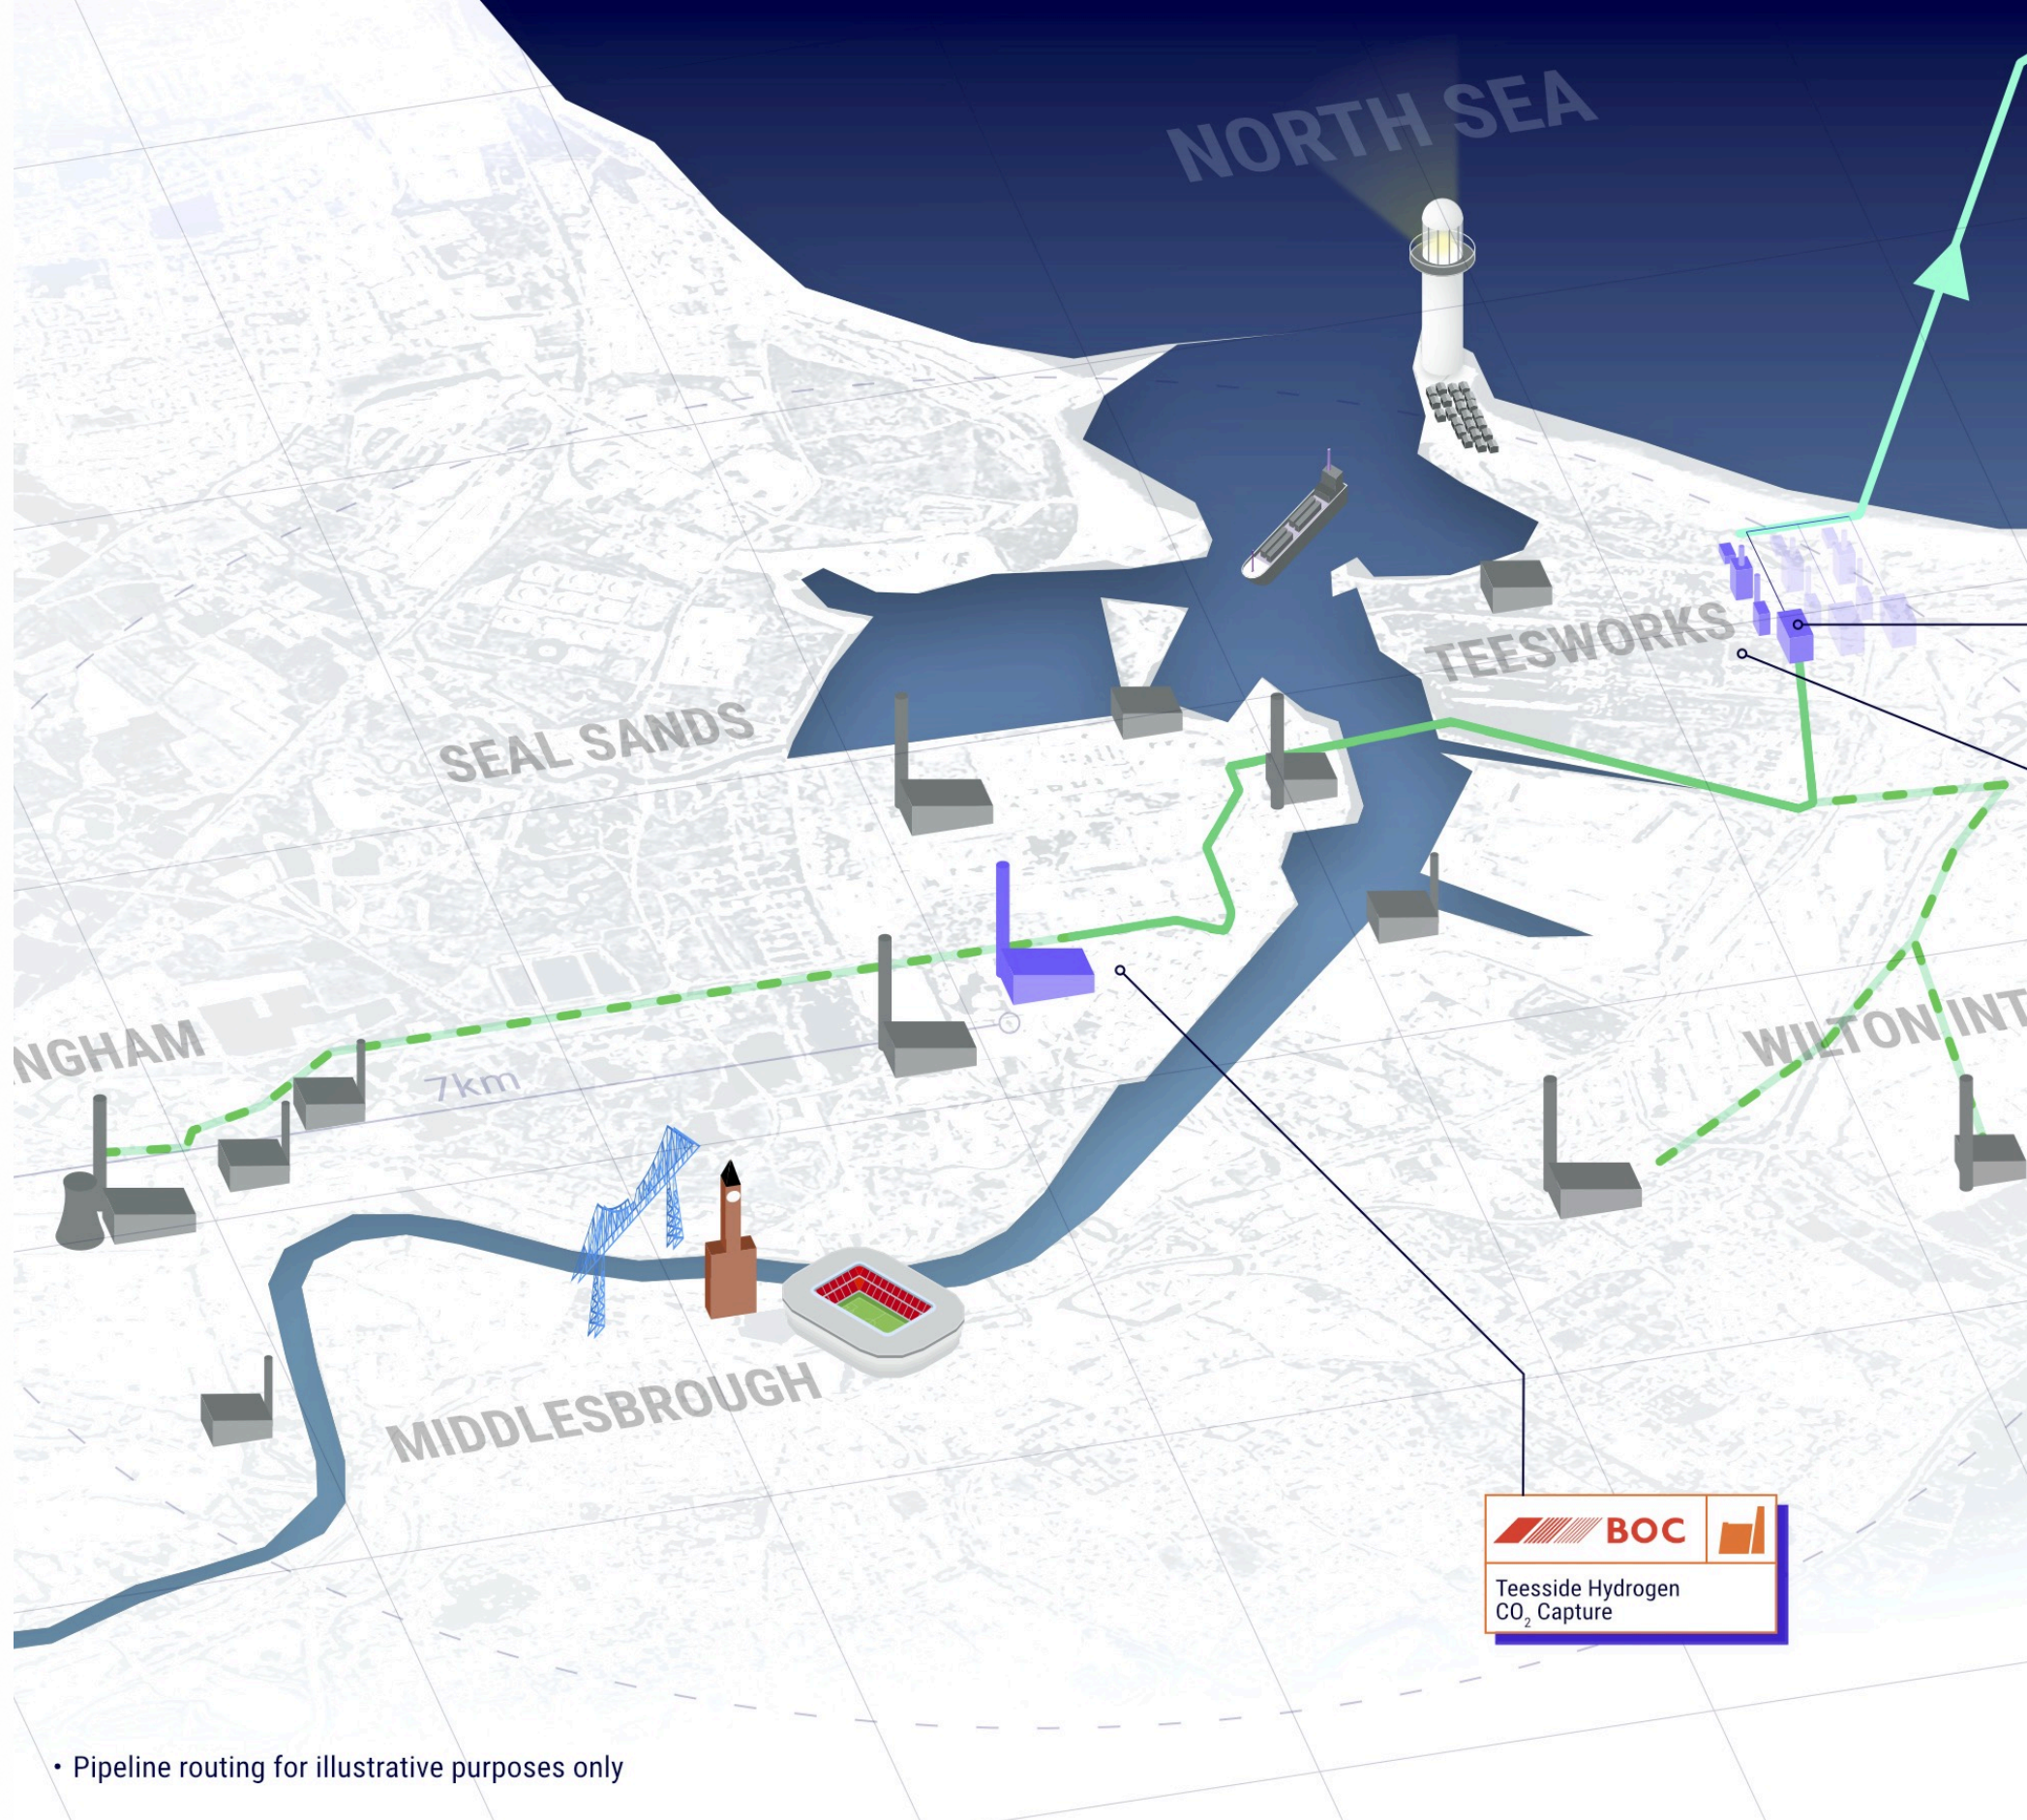

- Advise and provide communications support to colleagues.
- Build relationships with peers in partner organisations and stakeholders, collaborating to achieve NEP's objectives.
- Manage event logistics and partnerships with organizers to promote NEP's external profile.

What you'll need to be successful

- Proven experience in media, digital, or communications support roles, preferably in energy, infrastructure, or multi-stakeholder organisations
- Strong written and verbal communication skills, with the ability to develop clear, engaging content
- Experience managing social media channels, websites and digital campaigns
- Strong interpersonal and stakeholder engagement skills
- Ability to manage multiple priorities and work under pressure
- Creativity, flexibility and a collaborative approach to achieving objectives
