About the IPA

The Organisation

Our Purpose

The Institute of Public Administration exists to support a capable, confident and effective Public Service in Ireland. Our purpose is to strengthen the capability and leadership required to meet complex demands, make sound decisions and contribute to better public services for the people of Ireland. We do this through learning and leadership development that is evidence-based, practice-led and focused on application at a whole-of-government level.

As a trusted, government-supported institution, we provide an open and inclusive space for learning, reflection and exchange across the Public Service. We bring people together across organisational and sectoral boundaries to strengthen shared understanding, professional standards and continuous improvement.

We support a Public Service that can adapt to change, work collaboratively across the system and translate policy intent into effective delivery and public value.

Our Role in Supporting the Public Service

We play a fundamental role within Ireland's Public Service as a trusted, independent learning partner in capability and leadership development grounded in specialist knowledge and expertise. Our role is founded on long-standing academic credibility, professional expertise and a deep understanding of how public services are designed, governed and delivered in Ireland. This reflects our leadership in shaping future public-service capability development.

We engage with public servants at all stages of their careers, from early career professionals to senior leaders, across a wide range of functions and policy domains. We help build shared standards, common understanding and consistent approaches to public service challenges, while recognising the diversity of organisational contexts and responsibilities.

We bring learning into the realities of public service work. Our role is to shape learning that is credible and grounded in practice, from accredited learning to professional expertise and skills development.

Independence is central to our role. We provide a space for learning and dialogue across the Public Service, enabling open discussion and informed challenge. We do this by connecting evidence, policy intent and delivery experience in ways that strengthen collective capability.

We work closely with public service sponsors and partners who invest in learning and development. These relationships are based on trust, professionalism and a shared commitment to public value, supporting capability development that is sustained, applied and relevant to real delivery challenges.
