

MATERIOVIGILANCE ENGINEER

Lyon, France

MONIA@ELEMED.EU

THE COMPANY

**Are you looking for your next challenge?
Would you like to focus on materiovigilance?**

If yes, join a well-established, growing company designing, developing, and producing orthopaedic devices that change the lives of patients.

To further support the growth of its Regulatory and Quality division, this company has released an exciting position for a Materiovigilance Engineer.

This is a great opportunity to join a close-knit team with one vision, surrounded by other senior experts in their field. You can be sure that no two days will be the same! You'll enjoy a wide variety of responsibilities covering various elements of Regulatory and Quality, on a global scale.

This is the chance to step up and make a difference!

THE OPPORTUNITY

This is a key role for the company! You will champion the product with the notified body, responding to any complaints to show why the product is fantastic and should remain in the market.

As a Materiovigilance Engineer you will be responsible to monitor incidents and complaints and to identify any trends.

RESPONSIBILITIES

As Materiovigilance Engineer your responsibilities will include but not be limited to:

- Registration of internal and external incidents
- Draft security reports such as FSN, FSCA, and other reports required by applicable regulations
- Be a key link for the Regulatory and Quality teams, providing critical feedback on materiovigilance trends and updates
- Play a critical role in external and internal audits with key post-market surveillance information
- Report directly to the competent authorities in regard to the evaluation of complaints
- Be responsible for KPI reports to senior management in connection with all post-market surveillance activities
- Manage the database of material safety actions

YOUR QUALIFICATIONS

- Scientific master's degree
- Experience with the MDR
- Experience in the medical devices industry, medical environment, or pharma
- Comfortable writing documentation in English
