

QUALITY SUPPORT

Waremmes, Belgium

✉ monia@elemed.eu

Would you like to start your career in a global MedTech company? Are you passionate about science?

THE COMPANY

This company has been enhancing performance in healthcare across the world for over 150 years so has a huge amount of history behind it, including being the first company to mass-produce dressings for wound care. Even though they have developed and manufactured many revolutionary devices, the innovation doesn't stop and is done in-house!

They are always looking for new ways to improve not just what they produce but also how they do business so have recently undergone a huge business transformation.

The value of work-life balance is strongly recognised, and therefore offers flexible working time. If you are looking for a large, established company that still feels like family, this is the place for you!

THE OPPORTUNITY

You will be part of a team of 5 people and under the supervision of the Head of Quality. You will be the link between the Quality Assurance and the operators. You will also support the Quality Administrator and Quality Coordinator.

So a chance to see the administrative side of Quality as well as the practical side.

You can be sure that no two days will be the same! You'll enjoy a wide variety of responsibilities covering various elements of Quality Operations.

If you want an exciting role and a varied workload in your next role, then this opportunity could be perfect for you!

YOUR RESPONSIBILITIES:

- Check, review and approve the release of production batches
- Provide support to the QA Operations team
- Participate in the diagnosis of deviations, in the implementation of the necessary actions, and propose solutions for improvement
- Support the team in the document review
- Coordinate the verification of measuring equipment
- Carry out the supervision and coaching of GMP standards in the production area
- Participate in different projects as a representative of the Quality department
- Manage the supply Quality documents for production and the management of work clothes (in a "back-up" activity)

YOUR QUALIFICATIONS:

- A bachelor's degree in Science or some experience in quality operations
- Enjoy working in a dynamic environment
- Strong experience with office pack
- Able to read and write in English
- Strong communication skills
